Stakeholders: **LKAB**

Scale: **Text**

Issuance date: **19/03/2004**

Type: **Prescriptive document**

Connections: 4

Language: **Swedish**

Pages: 1

Description:

This document is considered the act that initiates the process of relocating Kiruna. The company communicates its intention to construct a new mining level at a depth of 1,365 meters. Along with this, LKAB urges the municipality to begin the necessary planning to relocate the city, referring to a series of meetings held in previous months between the two stakeholders.
